

Skills

- MySQL (JOINS, WHERE)
- Python (Pandas, NumPy)
- Tableau
- Excel (VLookup, Conditional Formatting, Pivot Tables)
- Microsoft Power BI

Projects

AIRBNB MARKET ANALYSIS DASHBOARD – Tableau

- Built an interactive Tableau dashboard analyzing Airbnb listings to identify pricing trends, revenue patterns, and location-based performance
- Performed data preparation using SQL joins across multiple tables to create a unified dataset
- Analyzed average price by bedroom count, zipcode-based pricing, and yearly revenue trends
- Identified key insights such as premium pricing in high-demand locations and higher revenue from larger properties

PYTHON WEB SCRAPING PROJECT – Python

- Developed a Python script using BeautifulSoup and Requests to extract data from websites
- Structured and stored scraped data into CSV format for analysis
- Performed data cleaning and preprocessing to ensure usability
- Demonstrated end-to-end workflow from data collection to structured output

SQL SALES ANALYSIS PROJECT – SQL

- Conducted exploratory data analysis (EDA) using SQL to extract business insights
- Used JOIN, GROUP BY, and aggregate functions to analyze sales and customer behavior
- Calculated key performance metrics and identified trends across datasets
- Generated insights to support data-driven business decisions

SQL DATA CLEANING PROJECT – SQL

- Designed and implemented **SQL queries** to clean and preprocess raw datasets
- Removed duplicates, handled missing values, and standardized data formats
- Transformed raw data into structured, analysis-ready datasets
- Improved data quality and consistency for downstream analysis

BIKE SALES CUSTOMER ANALYSIS DASHBOARD– Excel Project

- Developed an interactive **Excel dashboard** to analyze customer demographics and purchasing behavior
- Cleaned and transformed raw data by handling missing values, duplicates, and inconsistencies
- Utilized **pivot tables**, charts, and slicers to visualize KPIs and customer segmentation
- Identified key factors influencing purchases, including income level, age group, and commute distance

Work Experience

DATA COLLECTION & WEB CONTENT ASSISTANT– Wake and Tech Nepal Pvt. Ltd. – Kathmandu, Nepal

July 2024 - September 2025

- Collected, cleaned, and managed business data for website listings
- Worked with incomplete and unstructured data to ensure accuracy and consistency
- Assisted in training team members on data entry and content processes
- Conducted research to improve data quality and coverage

Education

BACHELOR IN COMPUTER APPLICATION (BCA)– Tribhuvan University

St. Lawrence College, Kathmandu Nepal

2022 - 2026
